RATES OF FARE NOT FIXED IN PEARL HARBOR LINE FRANCHISE

Text of Law Shows Concessions Granted the Company and Rights Retained by the Government—No Right of Way Through Naval Reservation Save on United States Tracks

Below is the amended draft of the bill granting a franchise to the Pearl Harbor Traction Company, Ltd., to build and operate an electric railway connecting the Rapid Transit system of Honolulu with the Pearl Harbor Naval Station and Fort Kamehameha, as reported from the House committee on military affairs and committed to the committee of the whole House on August 15, a few days before its passage by both House and Senate.

It will be noticed that there is nothing relating to rates of fare, excepting a provision for free transfer of all through passengers between the two systems, and officials of the company here have stated that the matter of fares has yet to be considered: Text of Bill.

That to connect the waters of Pearl Harbor, the naval station, and the Fort Kamehameha Military Reservation and wharf thereon with the Fort Shafter Military Reservation and with the street railway system of the city of Honolulu, there be and is hereby granted to the Pearl Harbor Traction Company, Limited, a common carrier corporation organized and existing under the laws of the Territory of Hawaii, and to its successors and assigns, a revocable right of way forty feet in width through the Fort Shafter Military Reservation, upon such route as shall be approved by the Secretary of War, and subject to such rules and regulations in the interests of good order, police, sanitation, and discipline as the Secretary of War may from time to time prescribe, but no part of the right of way shall be used for storage of rolling stock or material. The United States shall be entitled to the following easements along or upon the entire right of way of the company now owned or hereafter acquired: (a) for the construction of a government telephone line and government telegraph line, using if desired for such purposes the standing poles of the company, and (b) of a water-pipe line for government use, but all such construction, and the operation and maintenance thereof, shall be so conducted as to interfere as little as possible with the construction, operation and maintenance of the railroad. And said company shall, upon written notice from the Secretary of War, and within a reasonable time,

construct, operate, and maintain all such spur and side tracks as may be necessary to serve the reserve storehouses to be built upon the Fort Shafter Reservation by the United States, adjacent to said company's line of road, and shall also operate its cars thereto upon any tracks constructed by the United States, and shall erect and maintain on said reservation a suitable passenger shelter and a local freight shelter, at such points as may be designated by the Secretary of War. Upon the construction by the United States of such reserve storehouses, the said Pearl Harbor Traction Company, Limited, will construct, on a right of way to be acquired by it for the purpose an extension of its lines to connect with the government tracks on the Fort Kamehameha Military Reservation, and will operate its cars on such government tracks, subject to such rules and regulations in the interest of good order, police, sanitation, and discipline as the department commander may, from time to time, prescribe. In the construction of the railroad upon the Fort Shafter reservation such earth or other material excavated and not needed therefor shall be deposited on the reservation at such places as may be designated by the commanding officer at Fort Shafter. The said company shall transport, free of charge upon its regular passenger cars between the passenger station at Fort Shafter and the terminus on such reservation of the present street car system of Honolulu, all through passengers coming from or going to any point on the lines of the said system.

Sec. 2. That Congress may permit any other person or corporation hereafter acquiring a franchise for the operation of a steam, electric, or other railroad on the island of Oahu, Territory of Hawaii, to use the tracks, spurs, sidings, and other construction herein authorized on said reservation, upon payment to the Pearl Harbor Traction Company, Limited, of just compensation for such use. And whenever said revocable right of way hereby granted shall cease to be used by said company the same shall revert to the United States.

Sec. 3. That Congress reserves the right to alter, amend, or repeal this act.

BUSINESS OUTLOOK CONTINUES GOOD

Dun's Review (N. Y.), August 17:—The industrial and trade situation fully maintains its recent improvement and a further advance in activity is noted in the reports from the leading centers. The remarkably favorable crop outlook at the middle of August, when every day makes the risk of deterioration or damage more remote, is the basis of the most optimistic sentiment that has existed in six years. This optimism grows daily, in spite of the fact that prices, except for declines in cereals and cotton, continue on a high level, still making consumers more or less cautious. There are other causes of conservatism remaining over from the old, but now disappearing, order of depression, but they are being overwhelmed by the great tide of prosperity which seems to be rising in all sections of the country. The iron and steel trade, in all its important departments, continues to expand, with further increases in unfilled business. The railroads, with gross revenues in the first week of August 6.7 per cent. larger than last year, are actively preparing for a big fall business. The number of idle cars has diminished and the carrying of the increased business of the country is already becoming a serious problem. The dry goods trade in every branch, both cottons and woolsens, wholesale and retail, shows sustained activity, which is all the more remarkable because this is the midsummer season and because high prices still produce complications. The clothing trade is excellent. Leather and hides are very strong. In spite of the high prices of raw material, the shoe trade commands an active consumption. Copper production is at a high point, the July output of refined breaking all previous records. The big break in the market for raw cotton is one of the notable developments of the situation, because it is brought about by the favorable crop news, which increases the prospect of a large yield. The wheat and corn situation is also auspicious. New building operations are heavy. Bank clearings this week outside of New York increased 8.3 per cent. over 1911 and 12.9 per cent. over 1910; in New York there was a decline of 6 per cent. as compared with last year, but a gain of 16.3 over 1910. Foreign commerce of the port of New York during the latest week was of imposing proportions, aggregating \$24,013,231, against \$29,626,497 in 1911 and \$35,086,736 in 1910. The exports were \$16,472,371 as compared with \$13,677,459 in 1911 and \$16,625,635 in 1910.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work.
